Project Name	FloodGuard - AI/ML Flood Prediction System
Maximum Marks	2 Marks

Customer Journey Map

Mapping the user's experience stage-by-stage while using FloodGuard.

Phase of Journey	Awareness	Prediction	Action
Actions	User hears about FloodGuard from a local authority or colleague	Opens the /predict page and enters current weather readings	Reviews the risk result and history log, decides whether to issue a warning
Touchpoint	Landing page (home)	Prediction form + AJAX result panel	History page / dashboard
Customer Thought	"Can this actually tell me something useful?"	"Is this reading accurate for my situation?"	"This matches what I expected — I can trust this."
Customer Feeling	Curious, skeptical	Focused, slightly anxious	Reassured, confident
Process Ownership	Product/marketing	ML model + backend	History logging (database)
Opportunities	Add clearer explanation of accuracy on home page	Add inline field validation and tooltips	Add trend charts across past predictions
